WORK EXPERIENCE

Frontend - Engineer

HealthPlix Technologies

Bengaluru

July'22 - Present

- **Integrated AI-powered documentation** using OpenAI APIs, enabling doctors to record conversations and upload documents for automated structured summaries in IPD and OPD workflows.
- Did **third-party EHR integrations** with **Epic and Cerner** sandboxes, expanding HealthPlix's capabilities and supporting its global expansion strategy.
- Build functionality for IPD and OPD, contributing to over **5 Crore** in revenue by improving efficiency in doctor-patient workflows.
- **Optimized frontend performance** by reducing **re-rendering overhead by 25%**, enhancing user experience responsiveness and for complex VisitPad workflows.
- Built and maintained a reusable UI library using **ReactJS, TypeScript, and Tailwind CSS**, improving frontend consistency and accelerating cross-team development.
- Implemented **offline data storage** using **Watermelon DB**, ensuring seamless access to patient records in low-connectivity regions, expanding adoption in rural areas.
- **Integrated Amplitude for frontend analytics**, enabling **data-driven product improvements** by capturing user behavior insights.
- **Contributed to business-critical problem-solving**, including improving patient history print preferences to make data retrieval more intuitive for healthcare providers.
- **Led technical discussions and user experience enhancements**, particularly in patient history, pop-ups, and investigation workflows.
- **Mentored new team members**, providing insights into architecture, best practices, and feature implementations to enhance cross-functional collaboration.

Data Science Intern

Aramex India Pvt Ltd

Mumbai

Aug'21 - Jan'22

- Improved last-mile performance in Bahrain by improving address information extraction logic.
- Developed and trained a model to map the addresses of the delivery points in Bahrain using block numbers and road numbers that **increased the precision** of the trained model from **90% to 99%**.
- Data analysis, pre-processing, and feature engineering was performed for reliable results.
- **Demonstrated exceptional performance** and contributions, leading to an **offer for a full-time role** with **Aramex India Pvt Ltd**.

EDUCATIONAL QUALIFICATIONS

B.E, Electronics and Instrumentation Engineering

Birla Institute of Technology and Science, Pilani

2022

Class 12th – ISC Board

City Montessori School, Lucknow

90.33%

2018

Class 10th – ICSE Board

Seth M.R. Jaipuria School, Lucknow

95%

2016

SCHOLASTIC ACHIEVEMENTS

- Secured an **AIR of 8358** in IIT - Joint Entrance Exam Mains, 2018 from among 1.2 million candidates
- Selected for Kishore Vaigyanik Protsahan Yojana Scholarship (KVPY) 2018 by securing an **AIR of 900**
- Selected as one of the top 1000 candidates in UP Science Talent Search Examination and received a scholarship of **INR 48,000**
- **National Top 1% in National Standard Examinations(NSEs) in Physics, Chemistry and Astronomy** 2017-18 organised by **Indian Association of Physics Teachers (IAPT)** and appeared for **INPhO, INChO** and **INAO** (respective next stages)
- Awarded Max New York Life Igenius Scholarship 2010 and received a scholarship amount of **INR 3000** as a reward for exceptional performance in extracurricular pursuits.

SELECTED PROJECTS

Snapgram - Live Demo | GitHub

Mar'24 - April'24

- A full-stack Instagram clone with authentication, posts, likes, comments, and real-time updates.
- Built using React, Firebase, and Tailwind CSS for a seamless social media experience.

Inpatient Department (IPD) Module Development

HealthPlix Technologies

July'22 - Present

- Developed the IPD module for efficient patient management in larger hospitals.
- Integrated OpenAI's text-to-speech technology, enabling conversational input for populating VisitPad notes.

Flagship Electronic Medical Record (EMR) Product Enhancements

HealthPlix Technologies

July'22 - Present

- Revamped the consultations page for improved navigation and user experience.
- Implemented features for patient history and past medication views, enhancing data access for healthcare providers.
- Contributed to the VisitPad OPD, facilitating over **2 Crore rupees** in sales from small clinics.

One Shot Fingerprint Singular-Point Detector

Mentor: Prof. Kamlesh Tiwari

Mar'22 - May'22

Architecture Image Matching

Mentor: Prof. Kamlesh Tiwari

Mar'22 - May'22

Laser Applications in Biomedical Field

Mentor: Prof. Dr. Sujan Yenuganti

Mar'21 - Apr'21

Design and Analysis of Temperature Control System using Conventional PI and Advanced ANN Controllers

Mentor: Prof. Puneet Mishra

Jan'21 - July'21

A Closer Look at Spatiotemporal Convolutions for Action Recognition

Mentor: Prof. Surekha Bhanot

Mar'20 - May'20
