WORK EXPERIENCE

Frontend Engineer *Bengaluru*
HealthPlix Technologies July'22 - Present

- Integrated **AI-powered clinical documentation** with OpenAI APIs and **Server-Sent Events**, enabling doctors to record conversations and upload documents for structured IPD and OPD summaries.
- Built IPD and OPD workflows contributing to over **INR 5 Crore** in revenue by improving doctor-patient operations, billing, and care delivery efficiency.
- Architected **TypeScript migration** and **Zustand state management**, unifying Patient Popup across OPD and Lab modules and reducing re-rendering overhead by **25%**.
- Built and maintained reusable UI components while migrating legacy patterns to modern **Shadcn** and **Tailwind CSS** architecture, improving frontend consistency and accelerating cross-team delivery.
- Identified and resolved **90% of revenue leakage cases** from ads, deposit calculations, and payment-split regressions, directly protecting billing integrity.
- Led **HALO AI Summarization** frontend delivery with live parsing and complex state synchronization for AI-powered medical dictation workflows.
- Contributed to **Watermelon DB offline storage**, **Amplitude analytics**, Sentry observability, and mentored engineers on TypeScript, state management, and feature architecture.

Data Science Intern *Mumbai*
Aramex India Pvt Ltd Aug'21 - Jan'22

- Improved last-mile delivery performance in Bahrain by refining address extraction logic for delivery-point mapping.
- Developed and trained a model using block and road numbers that increased mapping precision from **90%** to **99%**.
- Performed data analysis, preprocessing, and feature engineering for reliable address-mapping results.
- Demonstrated strong ownership and contributions, leading to an offer for a full-time role with Aramex India Pvt Ltd.

EDUCATIONAL QUALIFICATIONS

B.E, Electronics and Instrumentation Engineering 7.47/10.0
Birla Institute of Technology and Science, Pilani 2022
Class 12th - ISC Board 90.33%
City Montessori School, Lucknow 2018
Class 10th - ICSE Board 95%
Seth M.R. Jaipuria School, Lucknow 2016

SCHOLASTIC ACHIEVEMENTS

- Secured an **AIR of 8358** in IIT-JEE Mains 2018 from among 1.2 million candidates.
- Selected for Kishore Vaigyanik Protsahan Yojana Scholarship (KVPY) 2018 with an **AIR of 900**.
- Selected as one of the top 1000 candidates in UP Science Talent Search Examination and received an **INR 48,000** scholarship.

- National Top 1%** in National Standard Examinations in **Physics, Chemistry, and Astronomy** 2017-18.
- Awarded Max New York Life Igenius Scholarship 2010 with a reward of **INR 3,000**.

SELECTED PROJECTS

Portfolio Website 2026

- Personal portfolio for frontend work, projects, and professional profile; also used as the resume-name redirect.

Exploding Production Game 2026

- Codex-assisted browser game deployed on Render with interactive gameplay, polished UI flow, and production-hosted routing.

Multiplayer Game Hub 2026

- Multiplayer game platform with multiple browser games, shared entry flow, and frontend interactions designed for real-time play sessions.

Snapgram - Live Demo | GitHub Mar'24 - Apr'24

- Full-stack Instagram clone with authentication, posts, likes, comments, real-time updates, React, Firebase, and Tailwind CSS.

Inpatient Department (IPD) Module Development *HealthPlix Technologies* July'22 - Present

- Developed IPD workflows for patient management in larger hospitals and integrated AI-assisted input for VisitPad notes.

Flagship Electronic Medical Record (EMR) Product Enhancements *HealthPlix Technologies* July'22 - Present

- Revamped consultation, patient history, and medication views for healthcare providers, supporting over **INR 2 Crore** in OPD sales.

One Shot Fingerprint Singular-Point Detector *Mentor: Prof. Kamlesh Tiwari* Mar'22 - May'22

Architecture Image Matching *Mentor: Prof. Kamlesh Tiwari* Mar'22 - May'22

A Closer Look at Spatiotemporal Convolutions for Action Recognition *Mentor: Prof. Surekha Bhanot* Mar'20 - May'20

SKILLS

Frontend: ReactJS, TypeScript, JavaScript, Zustand, Shadcn, Tailwind CSS, CSS Transforms
APIs and Realtime: REST APIs, Server-Sent Events (SSE), OpenAI APIs, Firebase, real-time UI workflows
Engineering Tools: Git, Sentry, Amplitude, Watermelon DB, Render, Netlify
Programming Languages: Python, C++, Java
