WORK EXPERIENCE

Frontend Engineer

HealthPlix Technologies

Bengaluru

July'22 - Present

- Contributed to frontend delivery for **AI Summarization and Dictation** modules, integrating OpenAI workflows with **Server-Sent Events (SSE)**, live parsing, and conversational input for consultations.
- Optimized revenue retention by identifying and resolving **90% of revenue leakage cases** associated with outperforming ad performance issues.
- Stabilized high-stakes **IPD/OPD billing systems** by resolving regressions in deposit calculations and payment-split logic to ensure financial data integrity.
- Advanced frontend observability by implementing **Sentry proactive monitoring** and **Amplitude telemetry**, leveraging real-time error tracking and user behavioral insights for data-driven product iterations.
- Accelerated application performance and code maintainability by reducing **VisitPad field re-renderings by 25%**, resolving memory leaks, and unifying core components like the Patient Popup across modules to eliminate technical debt.
- Developed and maintained an in-house reusable UI library utilizing **Shadcn UI**, **Tailwind CSS**, and **HTML**, improving frontend consistency and cross-team developer velocity.
- Enhanced **VisitPad functionality in OPD**, contributing to over **2 Crore in clinic sales** by delivering a reliable, feature-rich experience tailored specifically for small clinic workflows.
- Integrated **WatermelonDB** to facilitate offline data storage, significantly enhancing app performance and accessibility in low-network, rural, and remote environments.

Data Science Intern

Aramex India Pvt Ltd

Mumbai

Aug'21 - Jan'22

- Improved last-mile delivery performance in Bahrain by refining address extraction, preprocessing, and feature engineering for delivery-point mapping.
- Developed a block and road-number mapping model that increased address precision from **90% to 99%**, leading to a full-time role offer.

EDUCATIONAL QUALIFICATIONS

B.E, Electronics and Instrumentation Engineering

7.47/10.0

Birla Institute of Technology and Science, Pilani

2022

Class 12th - ISC Board

90.33%

City Montessori School, Lucknow

2018

Class 10th - ICSE Board

95%

Seth M.R. Jaipuria School, Lucknow

2016

SCHOLASTIC ACHIEVEMENTS

- Secured an **AIR of 8358** in IIT-JEE Mains 2018 from among 1.2 million candidates.
- Selected for Kishore Vaigyanik Protsahan Yojana Scholarship (KVPY) 2018 with an **AIR of 900**.
- Selected as one of the top 1000 candidates in UP Science Talent Search Examination and received an **INR 48,000** scholarship.
- National Top 1%** in National Standard Examinations in **Physics, Chemistry, and Astronomy** 2017-18.
- Awarded Max New York Life Igenius Scholarship 2010 with a reward of **INR 3,000**.

SELECTED PROJECTS

Portfolio Website

2026

- Personal frontend portfolio showcasing projects, experience, and profile; also used as the clickable resume-name destination.

Exploding Production Game

2026

- Codex-assisted browser game deployed on Render with polished gameplay flow, production routing, and frontend-first interaction design.

Multiplayer Game Hub

2026

- Multiplayer browser game platform using real-time game-room flows, shared entry UX, and WebSocket-style state synchronization patterns.

Snapgram - Live Demo | GitHub

Mar'24 - Apr'24

- Full-stack Instagram clone with authentication, posts, likes, comments, real-time updates, React and Tailwind CSS.

Architecture Image Matching

Mar'22 - May'22

Mentor: Prof. Kamlesh Tiwari

- Machine-learning project exploring feature extraction and visual similarity matching for architecture images.

One Shot Fingerprint Singular-Point Detector

Mar'22 - May'22

Mentor: Prof. Kamlesh Tiwari

- Computer-vision project for detecting fingerprint singular points using one-shot learning techniques.

SKILLS

Frontend: ReactJS, TypeScript, JavaScript, Zustand, Shadcn, Tailwind CSS, CSS Transforms

APIs and Realtime: REST APIs, Server-Sent Events (SSE), OpenAI APIs, Firebase, real-time UI workflows

Engineering Tools: Git, Sentry, Amplitude, Watermelon DB, Render, Netlify

Programming Languages: Python, C++, Java
